Dates for your Diary
Last Day of Term 2  Friday 26th June
Start of Term 3       Monday, 13th July

Principal’s Report

Since the beginning of this term I am aware a number of students are continually arriving late for school, or not attending school on certain days. One of our main focus/aims at Montague CEC is for all students to join the workforce, and as we are all aware, employers require consistency and commitment so it is imperative that these habits be established and practised. If a student is going to be absent or late then it is necessary we receive a phone call or text by 9am on the day. Next term I will be monitoring this very carefully and hopefully see an improvement. This of course does not apply to all students.

Students’ midyear reports are currently being completed by staff and will be finalised on the 19th June. During the following week staff will be available for interviews and appointment slips will be sent home.

Presentation Ball

Students – Anne Marie, Amina, Ashley, Brady, MacKenzie, Olivia, Toni and Yash are practicing hard to learn their dance steps for the Deb ball on 18th June.

Curriculum Day

School Council has approved 19th June as a Curriculum Day for staff.

Our wonderful facilities here at Montague are utilised by many community groups and students from other schools. We have been fortunate in receiving grants to help upgrade and enlance the environment. We are very proud of Montague and the care staff and students show in maintaining our school is obvious and appreciated, also while engaged in these programs students are learning many life and vocational skills.
This week, students and staff have been working in our school gardens. The purpose is to redesign the garden as a part of their VCAL goals and give the grounds a well-deserved make over. On Monday, students started the process by helping remove stones and learning about OH&S and about positive communication on the work site.

Students worked hard and enjoyed helping and preparing the garden for the next step. Students worked again on the grounds on Wednesday removing trees and branches.

Congratulations to Jonathon in room 20 who showed maturity, positive work ethic and worked through recess to help with the garden.
Congratulations to Toni and Grant for receiving this year’s award from the inner Eastern LLN education business and community Awards.
